React JS Frontend Developer with **6 Month of professional experience** in building responsive, user-centric web applications for service-based clients. Strong expertise in **HTML, CSS, JavaScript, React.js, and Next.js**, with hands-on experience in translating client requirements into **scalable UI solutions**. Experienced in working on diverse domains including courier, healthcare, e-commerce, beauty, yoga, and agency websites, with a strong focus on performance, animations, and modern UI/UX practices.

EDUCATION

Indira Gandhi National Open University

Bachelor of Computer Applications

July 2022 – June 2026 (Expected)

New Delhi

PROFESSIONAL EXPERIENCE

A2V GROUPS

Frontend Developer

August 2025 – Present

On-Site job

- Developed and maintained **responsive frontend interfaces** using **HTML, CSS, JavaScript, React.js**, and **Next.js** based on client and business requirements.
- Worked on multiple real-world projects across domains such as **courier systems, hospitals, beauty salons, e-commerce, yoga portfolios, and agency websites**.
- Implemented **modern UI animations** using **Framer Motion, GSAP, and Three.js** to enhance user engagement.
- Integrated **REST APIs** for dynamic data rendering, dashboards, and interactive features.
- Built reusable components and followed **clean code and component-based architecture**.
- Ensured **cross-browser compatibility**, responsiveness, and performance optimization.
- Deployed projects on **Netlify and Vercel**, managing builds and production releases.
- Collaborated with designers and backend teams to deliver projects within timelines.

PROJECTS

Rawat Band – Business Website

- Developed a responsive business website **showcasing services, gallery, videos, about, and contact pages**.
- Integrated **fixed WhatsApp chat** icon to improve customer engagement and lead generation.
- Designed clean UI for better visual appeal and brand presence.

Smart Shipping & Secure Logistics System (Courier Platform)

- Built frontend for a courier management system with **step-by-step shipment tracking**.
- Implemented **PDF generation**, delivery partner dashboard, and admin panel UI.
- Designed separate dashboards for **Admin and Delivery Partners**.
- Integrated APIs for real-time shipment updates and tracking status.

Lotus Hospital

- Developed a hospital enquiry and information website with **speciality pages and doctor profiles**.
- Displayed **doctor schedules, insurance details (TCs), contact forms, and gallery sections**.
- Created structured layouts based on service pricing and hospital requirements.

Beauty Salon

- Built a modern beauty salon website using **React.js and Framer Motion**.
- Showcased services like hair, skin, and beauty treatments with **animated UI**.
- Created interconnected pages including **About, Services, and Gallery** for smooth navigation.

Yoga Portfolio Website

- Designed a yoga instructor portfolio website showcasing **services, classes, and personal branding**.
- Used **Framer Motion** for smooth animations and improved user experience.
- Ensured clean layout and mobile responsiveness.
